

Project Name:

Alberton Water Storage Tank

Recipient:

Town of Alberton, Montana

Address:

607 Railroad Avenue, Alberton, Montana 59820

Amount Requested:

\$1,000,000

Project Explanation:

Currently, the storage volume for Alberton is inadequate. The proposed Water Storage Improvements Projects will add 200,000 gallons of drinking water storage in order to provide adequate water volume to satisfy maximum day demands and also to deliver sufficient fire flow/volume. The Town is implementing a major improvements project to its distribution system in '24-'25 and the storage tank project is the next highest priority project according to the Town's 2020 Preliminary Engineering Report.

Washington, DC 20515

Re: Alberton Water Storage Tank

Dear Chairman Cole and Ranking Member DeLauro:

I am requesting funding for the Alberton Water Storage Tank Project in Fiscal Year 2025.

The entity to receive funding for this project is the town of Alberton, Montana located at 607 Railroad Avenue 59820.

The funding would be used for the town of Alberton's proposed water tank replacement which will add 200,000 gallons of drinking water storage to provide adequate water volume to satisfy maximum day demands. This project would benefit community health and safety by enhancing the potable water supply to the town of Alberton for domestic use and the addition of a second tank will allow for maintenance on the town's water system without losing access to water. The project is on the Drinking Water State Revolving Fund Intended Use Plan List, is shovel ready, and can meet the cost share requirements.

The project has a Federal nexus because the funding provided is for purposes authorized by section 1452 of the Safe Drinking Water Act, 42 U.S.C. 300j-12.

I certify that I have no financial interest in this project, and neither does anyone in my immediate family.

Sincerely,

Ryan Zinke
Member of Congress
